PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience designing and building enterprise software, currently serving as lead front-end engineer for a cloud and on-premise employee and visitor management platform. Skilled in requirement analysis, rapid front-end prototyping, and backend integration across the full software development lifecycle. Proficient in modern front-end frameworks (React, Angular), Spring Boot backend services, CI/CD pipelines, and cross-functional collaboration between design, backend, and customer-facing teams.

SKILLS

- **Requirements & Design:** Requirement analysis and customer/stakeholder communication, business-logic definition, API specification, UI/UX prototyping (Figma)
- **Front-End Development:** HTML5, CSS3, Bootstrap 5, Tailwind CSS, JavaScript (Vanilla), AngularJS (legacy), Angular, React
- **Back-End Development:** Spring Boot, Spring Data JPA, Spring Security, OAuth2, Spring WebFlux, Spring Kafka, Freemarker, Liquibase, Jackson
- **Build Tools:** Maven, Webpack, Vite
- **CI/CD & DevOps:** Jenkins, GitHub Actions
- **Documentation & Handoff:** API contracts, domain-rule documentation, backend integration handoff
- **Version Control:** Git, Subversion (SVN)

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Jan 2020 – Present

Neurotechnology Lab — Colombo, Western Province, Sri Lanka

- Lead front-end development of a cloud and on-premise biometric attendance and visitor management platform, translating customer requirements and custom business rules into scalable product features.
- Design, develop, and maintain the company's product website, ensuring consistent branding and up-to-date product messaging.
- Engage directly with prospective customers to clarify requirements, negotiate scope, and prepare technical proposals for custom system integrations.

Software Engineer

Oct 2015 – Dec 2020

Neurotechnology Lab — Colombo, Western Province, Sri Lanka

- Contributed to the development and maintenance of a Windows-based Time and Attendance application used by enterprise clients.
- Designed and developed a product website featuring shopping cart and online payment functionality, using Bootstrap and Laravel.
- Collaborated with DevOps and QA teams throughout testing and release cycles to ensure stable, on-time product delivery.

Intern**May 2015 – Oct 2015***Neurotechnology Lab — Colombo, Western Province, Sri Lanka*

- Supported the engineering team with software development tasks, gaining hands-on exposure to enterprise software development practices.
